Education

- **SRM Institute of Science and Technology**
  Bachelor of Technology in Computer Science Engineering | **GPA**: 4.2/5
  (Expected Graduation: May 2027)

_____

Projects

1.Travel Tracker WebApp

Tech stack: Full Stack Project

- Created a web application enabling users to track and mark countries they've visited on an interactive world map.
- Integrated **Node.js**, **Express**, and **PostgreSQL** to manage user data, including country selections and travel history.

2.Full-Stack E-Commerce Website

Tech Stack: *React.js, Node.js, Express, PostgreSQL*
- Created a complete e-commerce platform with user authentication and secure login.
- Built dynamic product catalog with CRUD functionality and integrated payment gateway.
- Implemented shopping cart and order processing features, along with an admin panel for product and order management.

3.Transshipment Hub

Tech Stack: *JavaScript, HTML, CSS, Python*
- Developed a full-stack interactive website for tracking transshipment logistics using **Python** for data visualization and a graphical interface for real-time updates.
- Designed a user-friendly interface for seamless interaction.
_____

Skills

- **Languages**: C/C++ , Python , HTML, CSS, JavaScript, PostgreSQL,
- **Frameworks/Libraries**: React.js, Bootstrap, Node.js ,Express.js
- **Tools**: Git, GitHub, VS Code
- **Other Skills**: Responsive Design, Web Accessibility, Debugging, Version Control, Problem Solving
